CREATIVE MEDSPA

Creative MedSpa in Atlanta is the Latest Exclusive Center of Excellence for the OxyGeneO™ 3-in-1 Super Facial Treatment from DermaMed Solutions, the Most Advanced Facial Technology in the Market

Live Demonstrations Set for Creative MedSpa's Soft Opening Event on Wednesday, March 30th from 4 p.m. to 7 p.m.

Atlanta, Georgia – March 24, 2016 – **Creative MedSpa**, the new division of Creative Dentistry of Atlanta, today announced that they have partnered with [DermaMed Solutions](#), one of the leading Microdermabrasion equipment and professional skincare companies in the United States, to be the first to bring the **OxyGeneO™ 3-in-1 Super Facial** exclusively to the Atlanta area.

The new Creative MedSpa will celebrate with a “soft opening” special event on Wednesday, March 30th, from 4 p.m. to 7 p.m. at 5505 Peachtree Dunwoody Road, Suite 460 (Atlanta, GA, 30342). There will be special demonstrations of the OxyGeneO 3-in-1 Super Facial as well as other free skin care demonstrations, “light bites” and beverages, and over \$1,000 in door prizes. RSVP for the soft opening special event at Creative MedSpa at <http://www.CreativeMedSpa.Eventbrite.com>.

DermaMed Solutions is an Exclusive Distributor of geneO™+ technology and the OxyGeneO™ 3-in-1 Super Facial treatment products in the United States. The OxyGeneO 3-in-1 Super Facial is a one-stop maintenance facial that softens the appearance of fine lines and wrinkles, minimizes pore size, and revitalizes dull complexions providing a balanced healthy look.

It is a breakthrough skincare technology that performs three actions simultaneously: gentle skin exfoliation, infusion of essential revitalizing nutrients and natural skin oxygenation. Similar to the natural hot springs effect, the GeneO+ is the world's first technology that naturally oxygenates the skin from within thus significantly accelerating the absorption and optimal utilization of nutrients both during and after treatment.

“When we talk to our clients and people who have experienced the OxyGeneO 3-in-1 Super Facial, we hear about how great their skin feels, how gentle the treatment was, and how soft their skin feels afterwards, and we also hear that it's a great ‘lunchtime’ treatment that doesn't take too much time out of their day,” Ginger Hodulik, co-owner and Vice President for Research and Development of DermaMed Solutions, said.

“At DermaMed Solutions, we have been steadfast in our belief that the condition of your skin is a reflection of your overall well-being,” said Hodulik. “Achieving and maintaining healthy, beautiful skin requires a ‘whole-istic’ approach that incorporates mechanical and topical treatments, but also considers nutrition, mindset and other lifestyle factors as a key component to the program.”

DermaMed Solutions, based in suburban Philadelphia, is an Exclusive Distributor of the geneO+ technology and the OxyGeneO treatment products in the United States. The geneO+ redefines facial treatments, with the integration of the most effective skin-enhancing technologies for the ultimate Super Facial, OxyGeneO and ultrasound, for an all-in-one skin renewal treatment. The geneO+ technology is a cutting-edge anti-aging solution that redefines cosmetic treatments. Gentle yet effective, OxyGeneO Super Facials simultaneously provide three essential skin-care treatments: exfoliation, natural skin oxygenation, and infusion of revitalizing nutrients through Ultrasound.

Creative MedSpa is a new division of Creative Dentistry of Atlanta, and provides Atlanta with a brand-new cosmetic medical facility, offering innovative skin care, botanical-based beauty products, and an assortment of aesthetic solutions in a serene, soothing atmosphere.

“All of us at DermaMed Solutions are excited to partner with the team at Creative MedSpa to introduce the geneO+ technology and the OxyGeneO 3-in-1 Super Facial to the Atlanta area,” said Mark Pinsley, co-owner and President of DermaMed Solutions. “Bringing the most advanced facial treatment and technology in the market today to Atlanta is a wonderful opportunity for both of our companies. One of our core principles is to help our customers find comfort in their own skin, and we know that Creative MedSpa’s clients will love the OxyGeneO treatment. Going forward, DermaMed Solutions will continue to provide Creative MedSpa and their clients with full customer support, training, and long-term clinical, technical and marketing support in a partnership for success.”

About DermaMed Solutions:

DermaMed Solutions takes a “whole-istic” approach to skin care. The company’s medical and spa partners benefit from DermaMed Solutions’ leading-edge aesthetic technologies, results-oriented skincare and wellness solutions, as well as their educational and training endeavors. Since 1998, DermaMed Solutions has provided thousands of spa and medical locations with quality aesthetic equipment manufactured in the USA, such as the MegaPeel®, known as the industry gold standard in microdermabrasion. The company’s dmSkincare line of skin care products and protocols, along with nutritional supplements and home care regimens, provides users with a multi-pronged approach to offer maximum results. The company is an Exclusive Distributor of geneO™+ technology and the OxyGeneO™ Super Facial treatment products in the United States. The geneO+ redefines facial treatments, with the integration of the most effective skin-enhancing technologies for the ultimate super facial, OxyGeneO and Ultrasound, for an all-in-one skin renewal treatment. The company’s products are available primarily at salons, spas and other skincare professionals. Additional information is available at <http://www.DermaMedSolutions.com>.
